Orthoses for Mobilization:
a Hands- on Orthotic Fabrication
Workshop**

Saturday, June 8, 2019

8 am to 5:00 pm

**Texas Hand and Arm Center
9301 North Central Expressway
Tower 1, Suite 300
Dallas, TX 75231**

Course Outline

(Program begins at 8:00 am and concludes at 4:30 pm)

(Lunch is on your own)

Power Point Presentation: Orthoses for Mobilization

Demonstration and fabrication of the following orthoses:

- Low Profile Radial Nerve Orthosis
- Dart Throwers Motion Orthosis
- Capener Orthosis
- PIP Dynamic Flexion Orthosis
- Static Progressive Wrist Flexion / Extension Orthosis

Educational Credit

A certificate of attendance will be issued to all attendees participating in the full program to meet CEU requirements. One day equals 8 contact hours or 0.8 CEU's. This workshop meets criteria "A: for HTCC certification and is accepted by NBCOT and most state OT boards.

Content Focus: Domain of OT, Performance Skills Client Factors, Context

Occupational Therapy Process: Intervention

Learning Objectives- Orthotic Fabrication Workshop

Upon completion of this course, participants will be able to:

1. Recognize indications, precautions and contraindications for mobilization orthoses of the upper extremity
2. Analyze mechanical properties required to fabricate low temperature thermoplastic mobilization orthoses for the upper extremity.
3. Identify important anatomical structures and landmarks of the upper extremity.
4. Analyze key characteristics of different types of mobilization orthoses and appropriate applications.
5. Compare and contrast different outrigger systems for mobilization orthoses.

Workshop format: A power point presentation, Orthotic fabrication demonstration, and hands-on fabrication of orthoses will guarantee achievement of learning objectives.

Debby Schwartz, OTD, OTR/L, CHT

Product and Educational Specialist

Physical Rehabilitation

Debby Schwartz is a hand therapist with over 33 years of experience as a practicing clinician. She joined Orfit Industries America to promote product awareness and instruction in orthotic fabrication. Debby is an active member of ASHT and participates in IFSHT meetings as well. She has presented on a variety of hand therapy topics both at national and international conferences, and has written a number of articles for hand therapy publications, including several papers published in the Journal of Hand Therapy. Debby completed her Doctorate of Occupational Therapy at Rocky Mountain University of Health Professions. She is an adjunct professor in the Occupational Therapy department of Touro University in NYC. She is presently co-authoring a textbook on orthotic fabrication.

This orthotic fabrication workshop is appropriate for OT's, COTA's, PT's, PTA's and CHT's working with an upper extremity client caseload and possessing intermediate orthotic fabrication skills.
