- Static Progressive Elbow Extension Orthosis with turnbuckle
- Short Opponens Orthosis

A certificate of attendance will be issued to all participants completing the CEU requirements. One day equals 8.0 contact hours (.8 CEU's). This splinting workshop meets criteria "A" for hand therapy certification and is accepted by NBCOT and most state OT boards.

**Content Focus:** Domain of OT: Performance Skills, Client Factors, Context

**Occupational Therapy Process:** Intervention

## LEARNING OBJECTIVES ORTHOTIC FABRICATION WORKSHOP

Upon completion of this course, participants will be able to:

1. Recognize indications, precautions and contraindications for mobilization orthoses of the upper extremity
2. Analyze mechanical properties required to fabricate low temperature thermoplastic immobilization and mobilization orthoses for the upper extremity.
3. Identify important anatomical structures and landmarks of the upper extremity.
4. Analyze key characteristics of different types of orthoses and appropriate applications.
5. Learn to critique and assess different characteristics of low temperature thermoplastic materials.

**Workshop format:** A power point presentation, splinting demonstration, and hands-on fabrication of splints will guarantee achievement of learning objectives.

## INSTRUCTOR

**Debby Schwartz, OTD, OTR/L, CHT**  
**Product and Educational Specialist**  
**Physical Rehabilitation**

Debby Schwartz is a hand therapist with over 33 years of experience as a practicing clinician. She joined Orfit Industries America to promote product awareness and splinting education. Debby is an active member of ASHT and participates in IFSHT meetings as well. She has presented on a variety of hand therapy topics both at national and international conferences, and has written a number of articles for hand therapy publications, including a clinical research paper on contrast bath use and a systematic review of joint mobilizations recently published in the Journal of Hand Therapy. Debby completed her Doctorate of Occupational Therapy at Rocky Mountain University of Health Professions. She is presently co-authoring a textbook on orthotic fabrication.

This splinting workshop is appropriate for OT's, COTA's, PT's, PTA's and CHT's working with an upper extremity patient caseload and possessing intermediate splinting skills.
