Orthoses for Mobilization  
with Orfit Industries America  
a hands-on orthotic fabrication  
workshop!

**Saturday, July 15, 2017**  
8 am to 5 pm

**ROC of Houston**  
1213 Hermann Dr  
Suite 380  
Houston TX 77004

**Sign up early to save your spot!**

## PROGRAM

Program begins at 8:00 am and concludes at 5:00 pm. (Lunch is on your own.)

Power Point Presentation:  
"Principles of Orthoses for Mobilization"

Demonstration and fabrication of the following orthoses:

- Anti-Ulnar deviation orthosis with Orficast
- Static progressive wrist flexion / extension orthosis
- Dynamic Extensor Tendon Outrigger Orthosis
- Static Progressive Elbow Orthosis

A certificate of attendance will be issued to all participants completing the CEU requirements. One day equals 8.0 contact hours (0.8 CEU's). This orthotic fabrication workshop meets criteria "A" for hand therapy certification and is accepted by NBCOT and most state OT boards.

**Content Focus:** Domain of OT: Performance Skills, Client Factors, Context

**Occupational Therapy Process:** Intervention

## LEARNING OBJECTIVES

Upon completion of this course, participants will be able to:

1. Recognize indications, precautions and contraindications for orthoses for mobilization of the upper extremity
2. Analyze mechanical properties required to fabricate low temperature thermoplastic orthoses for mobilization
3. Compare and contrast outrigger/ and or coil designs of orthoses for mobilization.
4. Discuss methods to help determine which mobilization orthosis is most appropriate.
5. Analyze key characteristics of different types of orthoses for mobilization.

**Workshop format:** A power point presentation, orthotic fabrication demonstration, and hands-on fabrication of splints will guarantee achievement of learning objectives.

## INSTRUCTOR

**Debby Schwartz, OTD, OTR/L, CHT**  
**Product and Educational Specialist**  
**Physical Rehabilitation**

Debby Schwartz is a hand therapist with over 33 years of experience as a practicing clinician. She joined Orfit Industries America to promote product awareness and splinting education.

Debby is an active member of ASHT and has participated in IFSHT meetings as well. She has presented on a variety of hand therapy topics both at national and international conferences, and has written a number of articles for hand therapy publications, including new orthotic designs published in the Journal of Hand Therapy.

Debby completed her Doctorate of Occupational Therapy at Rocky Mountain University of Health Professions. She is presently co-authoring a textbook on orthotic fabrication.

This orthotic fabrication workshop is appropriate for OT's, COTA's, PT's, PTA's and CHT's working with an upper extremity patient caseload and possessing intermediate orthotic fabrication skills.
